

Install matplotlib & you can use plt.plot() to create a line plot of given data.

#Input:-

```
import matplotlib.pyplot as plt
```

#Data

```
x = [0, 5, 9, 10, 15, 20, 25]
```

```
y = [0, 1, 2, 3, 4, 5, 6]
```

#Create a line plot

```
plt.plot(x, y)
```

#Add labels and title

```
plt.xlabel("X-axis")
```

```
plt.ylabel("Y-axis")
```

```
plt.title("Simple Line Plot")
```

#Show the plot

```
plt.show()
```

#Output:-
